Technical Support Intern

AP, India

- Performed testing and troubleshooting of 20+ electrical components and power systems, ensuring reliable operation and timely fault detection..
- Assisted in preventive maintenance, reducing equipment downtime through accurate fault diagnosis..
- Supported inspection and validation of motors, transformers, and power supplies while maintaining 100% safety compliance..

SKILLS

Programming & Tools

- Python Machine Learning
- Data Analysis IoT Arduino ESP32
- Database Management
- Embedded Systems

Technical Skills

- Problem Solving Analytical Thinking
- Team Collaboration Communication
- Research Time Management

PROJECTS

Tech-Enabled Local Adventures using IoT

- Developed an IoT-enabled smart tourism solution.
- Integrated sensors and wireless communication technologies.

Unmanned Aquatic Drone

- Designed an Arduino ESP32-based aquatic drone system.
- Implemented sensor integration and remote navigation functionalities.

CERTIFICATIONS

- Infosys Springboard Mastering Python
- Coursera Python for Data Analysis
- Coursera Data Visualization with Python
- Coursera Introduction to Python
- Coursera Data Visualization with Python
- Coursera Overview of Data Visualization
